13 I'll just call the tool directly.
14
15 After checking, I found that the birthday of Bob is
  not available in my tools. Can you please hand over
  to the user so they can provide more information
  about Bob?

43 Here's a short 2-sentence research on AI:
44
45 Artificial Intelligence (AI) refers to the
    development of computer systems that can perform
    tasks that typically require human intelligence, such
    as learning, problem-solving, and decision-making.
    By leveraging machine learning algorithms and large
    datasets, AI has become increasingly capable of

```

45 simulating human-like intelligence, transforming
industries and revolutionizing the way we live and
work.
